Correction

Correction: X-ray data processing

OPEN ACCESS

The authors of the original article above article "X-ray data processing" (*Biosci Rep* (2017) **37**(5), DOI: 10.1042/BSR20170227) would like to correct the formula given on page 12 for the reliability indices R_{meas} and R_{rim}. The author declares that this correction does not change the results or conclusions of the paper. The corrected formula is presented here:.

$$R_{meas} = R_{rim} = \sqrt{\sum_{hkl} \frac{N(hkl)}{(N(hkl)-1)} \times \frac{\sum_{i} |I_i(hkl) - \langle I(hkl)\rangle|}{\sum_{hkl}\sum_{i} I_i(hkl)}}$$
